

# LREC conference paper

A presentation of  
the DASISH Web Service Annotation Framework

## Up for discussion

- **Focus** on annotation framework instead of client
  - DoW, T 5.6 states *“Existing annotation frameworks (Annotea, OpenAnnotationArchitecture, etc) will be analyzed and compared with the requirements of SSH researchers. An annotation framework will be provided that can handle essential SSH requirements.”*
  - Current version of specification document available in Basecamp focuses on the client: *“DASISH WEB-ANNOTATOR. This document specifies a browser extension for annotating web-documents. We present the class structure of the implementation, describe the functionality from the user perspective and define the REST API.”*

## Up for discussion - Continued

- Participating authors
- Title
  - Suggestion for a preliminary title: "The DASISH Web Service Annotation Framework: A Facilitator for Shared Data Access and Enrichment within the SSH Domain "
- Abstract composition, distribution of contributions

## Up for discussion - Continued

- Moves to be covered:
  - Move 1: Outlining/promoting/problematising the research field or topic
  - Move 2: Justifying this particular piece of research/study
  - Move 3: Methodological, demographic, or procedural comments
  - Move 4: Summarizing the main findings
  - Move 5: Highlighting its outcome/results
  - Move 6: Further observations (implications, limitations, future developments)
- Different sections for: Framework specification, REST API, RESTful web service backend and database, client

## LREC paper submission

- The 9th International Conference on Language Resources and Evaluation (<http://lrec2014.lrec-conf.org>)
- Special requirements: Your abstract must consist of 1500 to 2000 words and must be formatted in PDF. An abstract of 1500-2000 words is about 3-4 pages and can contain references, tables, figures. (see: <http://lrec2014.lrec-conf.org/en/submission/submit-abstract/>)
- Submission needs to be characterized by defining a track and three topic areas
- Deadline is 15 October 2013
  - How do we fill the gap between what is planned (TODOS) and what has been accomplished so far?
