# Status

- The Metadata TDG is the first TDG starting the standardization process
  - This is the very first Change Request!
  - And thus the very first use of this ISOcat functionality
  - Feedback: [isocat@mpi.nl](mailto:isocat@mpi.nl)
- The Change Request currently inspected is on the ISOcat test server
  - <http://lux13.mpi.nl/>
  - Playground
  - This CR will disappear later
- Once the TDG chair gives the green light the Change Request will be recreated on the ISOcat production server
  - <http://www.isocat.org/>
  - The real standardization process will start then
